HOLA - SOY MELI

# I create art with purpose.

My responsibility as an abstract artist is to trigger different emotions to **send reflections in past memories or future visions**; creating a cause & effect that **helps people walk thru their problems**. Each person gets lost in their own journey from the layers & color patterns that I use for creating with purpose to bring out imagination & uplift creative energy in people thru their spirits. My soul is pure; and that leaves intention.

What I share thru my art is what every person can apply in their life today. I rely on my imagination to fulfill my obligations as a missionary by writing personal stories in the descriptions of each abstract art painting. I **fall forward in my challenges** while embracing the difficulty of an eventful lifestyle, this is how I create art with purpose; painting (planting) seeds in each artwork to change mindsets while empathizing a better humanity. The whole world is suffering.

## PUBLIC ART SHOWCASES

**KUTA - THE GATE 88**

**MEDELLIN, COLOMBIA**

**DETROIT, MICHIGAN**

MIAMI, FLORIDA

# What do I do tho:

## Abstract Art

Original abstract artwork using acrylic on canvas, applied with mixed media with spray paint and texture. Sometimes resin or top coat is added \*

## Mural Design

I bring visuals to life on the sides of buildings, plazas and shopping centers. I take the smallest bit of details and explode the most impressive creative project using mixed media. Added top coat to preserve color & paint duration.

## Showcases

I personally develop a series of artwork for use in a showcase, gallery, hotel, restaurant, night club, office and personal / private collection. Launch with press release and media interviews to promote on marketing channels.

## Live + Art Activation

I capture the ambience of the energy around me; and uplift it thru my dance moves and live art sessions. I paint live for happy hour, day club, pool parties, music festivals and techno after sets.

WHAT'S REALITY IF YOU  
LIVE INSIDE YOUR IMAGINATION?
